### TESTER TERMS & CONDITIONS

Our Tester Policy allows you to order one tester per retail product, which must be ordered at the same time.

Testers are to be used in your clinic to show your clients the product, to see if they like the texture and fragrance before they buy.

In normal circumstances, we believe that a tester should last approximately 6 months

We are happy to be flexible on retail products that are not produced in professional sizes for use in treatment

All tester purchases are monitored periodically.
